

Numeric Computer Systems, Inc. adds Gary Lavery to its team.

Numeric Computer Systems, Inc. (NCS) adds Industry Veteran Gary Lavery to its business development and implementation team. Focused on the Direct Store Delivery market, NCS delivers advanced back office and mobile technologies that add real value and reduce costs in the Supply chain.

FOR IMMEDIATE RELEASE

PR Log (Press Release) – June 15, 2018 – ###

Hauppauge, NY (PRWEB) June 15, 2018 – Numeric Computer Systems, Inc. is announcing the hiring of Industry Veteran Gary Lavery to add to its Route Accounting/Direct Store Delivery Business Development and Implementation team as a Senior Project Manager. Numeric Computer Systems, Inc. (NCS), a leading provider of back office and mobile computing solutions, has been delivering comprehensive solutions to the Consumer Products Goods (CPG) Industry for multiple applications involved in the processes of Direct Store Delivery (DSD).

Mr. Lavery brings a broad range of experience from an extensive 40-year career in the Consumer Products Goods Industry where he has held various leadership positions including his role as President of Ross Computer Systems, which had been a leading provider of computer solutions to the Consumer Packaged Goods Industry, prior to working at GAF Seelig as Executive Vice President. Mr. Lavery's experience spans years of providing Route Accounting/DSD solutions, as well as managing operations including oversight of the computer systems for a significant Dairy/Distribution business.

Mr. Lavery will utilize his vast experience helping Numeric's customers in various aspects of automation including analysis of needs, implementation, training, and ongoing support.

"Gary has been a leader in our business area for his entire career. His addition to our team is a significant event for our business development and growth plans. Gary brings tremendous experience and understanding of how technology can transform business processes and reduce costs. His reputation and accomplishments are evidence of what he will deliver to NCS and its clients." observed Wayne Hochberg, Executive Vice President and CFO of Numeric Computer Systems, Inc.

About Numeric Computer Systems, Inc.:

Numeric Computer Systems, Inc. is a premier global provider of supply chain execution solutions supporting the Direct Store Delivery process. Designed for the demands of the direct store delivery (DSD) market, NCS automates both back office functions and the requirements of mobile sales/delivery workers focusing on the fast moving consumer goods industry including baked goods, beverages, dairy, frozen foods and snacks. Headquartered in Hauppauge NY, NCS has regional offices in Dallas, San Juan, and Sydney.
